To All Concerned---

We are glad to announce to all cream producers that our Acme Branch is, and has been since January 1, 1929, on a co-operative basis; that is that all profits over expenses of operating and marketing will at the end of the year be divided among patrons, according to the amount of butter fat produced. The poor outlook for crops at the present time should induce every farmer to produce all cream possible. We will be glad to have you call and talk this important matter over.

AN OPEN LETTER TO THE PUBLIC

AN EXPLANATION

The Stampede Committee feel that the Public and patrons who attended this year's Sports were not generally speaking, satisfied with the showing made by the bucking horses and that the show was not up to the high mark usually set by the Elks of this district when they sponsor anything in the line of sport.

The committee had worked very hard in planning the grounds and building corrals, chutes, etc. we had arranged for and in fact, had on hand the pick of the wild horses and bucking steers of the district. But it became apparent early in the day of the contest that there was going to be a shortage of riders. The reasons for this are rather hard to decide, but we are inclined to think that the large number of Stampede contests being held on or near to the same date as ours, and the short time allowed between the posting of the bills and the pulling off of the events, was largely responsible. In any case the committee made every effort to obtain riders, phoning and wiring to likely places. We were assured that we would get the riders if we could delay the main events for a short time. That was the real reason why we changed the hour of commencing from 11 a.m. to 1 p.m. But even then the promised riders did not come and we were forced to try to carry out the contest with the few riders we had. That explains the apparent slowness of the events. Had there been a sufficient number of riders to carry out our plans, we were prepared and equipped to turn either a steer and rider or a horse and rider out of the chutes every five minutes, and even at that rate it would have taken many hours to run off all the events planned and the patrons would certainly have had a better run for their money. Another detriment to the show was the fearful dust storm which blew up in the afternoon. It was indeed unfortunate that the big money and chief events of the contest were being competed for during and immediately after the dust storm, when a great majority of the spectators had left the grounds to seek the shelter up town. We venture to assert that had the storm not blown up, everyone would have left the grounds better satisfied, as there was some real good riding and thrills and spills aplenty during this period.

To sum up, the committee has found that a successful Stampede cannot be run without riders, and plenty of them, and it will be necessary in future to advertise earlier, and get riders in from outside as there are no longer a sufficient number of riders in the district to cover all events. The dust storm was also responsible for the cancellation of the ball game, which we had intended to put on in the evening after the Stampede. The storm broke over Drumheller about the time the ball players were due to leave, and by the time the storm had blown over it was too late for the ball team to put on the game.

The Committee are keenly disappointed that they were unable to make the Stampede a greater success, but desire at this time to thank all who contributed by giving their time and labor to the building of corrals, fencing, etc. and assisting with the work during the two days program.

It may be well to add here that a complete report of the returns of the stampede has not yet been completed, but that it is expected that same will be ready for publication next week. It is apparent, however, that there will be a deficit of about \$100 after all expenses, etc. have been accounted for.

LITTLE ITEMS OF LOCAL INTEREST

English church services will be held in the Farmers' Exchange hall next Sunday evening at 7.30 p.m.

Mr. and Mrs. W. Notley arrived last Wednesday from Olds and visited at the home of Mr. and Mrs. H.A. English. They returned last Saturday.

The local telephone office has received a fresh coat of paint.

R. J. Fairbairn motored into Calgary on Monday to take in the first day of the Stampede.

Mrs. C. B. Moncrieff of Seattle, arrived on Wednesday and is visiting with her sister, Mrs. H. A. English.

Miss Ruth Ramsay and Billy Peters left last Wednesday for Olds, where they will take the short course, which they are entitled to by winning high honors at the Carbon School Fair last

Tennis Notes

W. POXON JR. AND MISS BRAISHER WIN IN MIXED DOUBLES

The Carbon Lawn Tennis Club brought the mixed doubles to a close on Saturday last, Miss E. Braisher and W. Poxon proving the winners out of sixty competitors, which is by far the largest number so far in any tournament held by this club. The following are the results and scores in the quarter-finals, Semi-finals and final:

Quarter-Finals—J. M. MacDonald and Miss Wiertz defeated H. Brown and Miss Ramsay 7-1, 6-2

W. Poxon and Miss Braisher defeated N. Nash and Miss Paton 6-2, 4-6, 6-5.

G. Ramsay and Miss Hart defeated H. Appleyard and Miss James.

E. Moritt and Miss E. English defeated J. Taylor and Miss Miller 6-2, 6-3.

Semi-Finals—W. Poxon and Miss Braisher defeated J. M. MacDonald and Miss Wiertz 6-1, 4-6, 6-4.

E. Moritt and Miss English defeated G. Ramsay and Miss Hart 6-3, 4-6, 6-5.

In the Finals, W. Poxon and Miss Braisher defeated E. Moritt and Miss English 6-3, 0-6, 6-3.

TENNIS PLAYERS VISIT ROSEBUD

An interesting match was played at Rosebud on Sunday, July 7th, between teams representing Carbon and Rosebud tennis clubs, in Division 6 of the Alberta Lawn Tennis Association competition. The result was for Carbon by four events to three. The following are the results:

Men's Singles—R. Lees of Rosebud defeated L. Poxon of Carbon 6-2, 6-1. C. Sangster of Rosebud defeated H. Longstaff of Carbon 6-5, 2-7, 6-4.

Men's Doubles—L. Poxon and H. Longstaff of Carbon defeated R. Lees and C. Sangster of Rosebud 6-4, 5-6, 6-3.

W. Edwards and W. Braisher Jr. defeated M. Jones and D. Gill of Rosebud 6-3, 3-6, 6-2.

Ladies Singles—Mrs. Laing of Carbon defeated Miss O. Jones of Rosebud 2-6, 6-1, 6-0.

Ladies Doubles—Mrs. Laing and Miss Braisher of Carbon defeated Miss Jones and Mrs. Engbaum of Rosebud, 6-1, 6-4.

Mixed Doubles—D. Gill and Mrs. Engbaum of Rosebud defeated Chas. Nash and Miss I. Nash 6-2, 3-6, 6-5.

After the match the Rosebud club entertained the visitors at a banquet and a most enjoyable time was spent. The Rosebud players proving excellent hosts.

year.

Mrs. J. E. James left on Tuesday to visit with her daughter, Mrs. Morrison, at Oyen.

Major T. W. and Mrs. Wright, of Grenfell, Sask. arrived last Wednesday and spent a few days visiting with Mr. and Mrs. H. A. English. They returned on Tuesday of this week.

I. Guttman of the Carbon Trading Co. has moved into his new store next to the building which he formerly occupied.

A number of local citizens are taking in the Calgary Stampede this week.

Mrs. Hoffart was expected to arrive last night to visit with her daughter,

PUBLIC SCHOOL JUNE PROMOTIONS

Promoted to Grade II—Sylvester Stepan, Robert Ramsey, Irene Grenier, Edward Batsch, George Moore, Lillian Poxon, Billy O'Leary, Lucille Lemay, Bobbie Hesselgrave, Victor Kaehn.

Promoted to Grade II from Grade I senior—Isobel Gouldie, Edwood Kaehn, Jimmy Gouldie, Bill Code, Irma Jacobs, Mae Moore, Gordon McGregor, Annie Lemay, Irene Saltes, Billy Rogers, Absent from tests, Elaine Torrance.

Promoted to Grade III—Albert Gieck, Ernest Fox, Cecil Trumbley, Harold Wise, Freddie Snihur, Jack Batsch, Jean Skerry, Jack Heath, Elmer Wolf, Alice Wolf, Marjorie Leitch, Francis Poxon, Douglas Prowse, Zona Fairbairn, Madge Hesselgrave, Jim Kyle.

Promoted to Grade IV—Agnes Skerry, Roy James, Stanley Ramsay, Samuel Malton, Bennie Zeigler, and Betty McQuade on trial.

Promoted to Grade V—Betty Code 83, Finlay Code 83, Fergus Greenan 82, George Jealous 79, William Graham 70, William Batsch 67, James Hunt 66, Veri Jacobs 60.

Promoted to Grade VI—Frances MacDonald, Walter Davis, Willie Fox, Martha Gieck, Lloyd Johnson, Jack Evans, David Kaiser, Cecil Pimm, Stella Dodyk, Charles Code, Ethel Wiertz, Alena Jewell, Charles Moore.

Promoted to Grade VII—Henry Trumbley 86, Florence Code 84, Wilfred Skerry 78, Myrtle Livingston 70, Willie Harvey 69, Samuel Poxon 66, Gordon Ramsey 65, Walter Batsch 65, Betty Johnson 60, Edna Bramley 60, Virgil Pimm 60, Harry Poxon 52.

Promoted to Grade VIII—Jack James 78, Paul Greenan, David Gieck 74, Billy Peters 70, Grace English 69, Sylvia Atkinson 65, Norman Nash 61, Norman Ramsay 57, Myrtle Oliphant 57, Winnie Poxon 53, Gladys Mortimer 51, (On Trial, William McGregor, Marion Wiertz, Agnes Wise.

Mrs. J. Rochester.

Cyril and Alex Poxon left yesterday for Calgary to take in the stampede.

A number of scattered showers have visited the district the past week and have relieved the situation for a while. However, a good 24-hour rain is what is needed if there is to be a crop at all this year. The summer-fallow is still holding out pretty good, but there is no hope for a crop of any kind on the stubble and many of the farmers are plowing this under and getting ready for next season.

The editor and family expect to take a little holiday in British Columbia, about the 21st of this month and unless some definite arrangement can be made, the office will be closed for a couple of weeks.

The One Hundred Percenter

Lady Astor, like Bernard Shaw, has the habit of saying startling things that make people think, says the Winnipeg Tribune. In the recent election campaign in Great Britain she struck a responsive chord in many minds when she said:

"It is the 100 per cent. American and the out-and-out Englishman I fear. I think 100 per cent. citizens ought to be locked up. They are a danger to the world."

Everybody knows what a 100 percenter, or an out-and-out, is. He is to be found in more or less substantial numbers in every country, although his favorite stamping ground is the North American continent. The 100 percenter may be distinguished by several well-known characteristics.

In the first place, he hails as a great moral principle the immoral doctrine embraced by the famous motto, "May my country be always right, but my country right or wrong." This naturally scales down into "my state (or province), my city, my ward, my party"—and, not infrequently, "myself." In essence it is placing a nation, or a locality, or a group of persons associated together for some common cause, above every ethical or moral judgment of mankind, above the sense of right or wrong.

Another sign of the 100 percenter is a steadfast belief that everything that is American, or Canadian, or English, or Italian, is right, because it is American, or Canadian, or English, or Italian. The logical consequences of of such an obsession is that he cheapens his country's flag by dragging it in and flaunting it on every possible occasion.

The 100 percenter is not all bad, of course. He merely fails to see that patriotism is not the cause but the result of a sound and honorable national life. He is the victim of current standardization of thought which manifests itself in slogans and headlines. Not everyone would want to go as far as Lady Astor and have him locked up. Nevertheless he is a danger because his enthusiasm is rooted mainly in a mass of intolerances. And intolerance, as Lady Astor implied, is one great obstacle to civilized social progress.

And in civilized social progress lies the hope for the future peace of the world. If the American, the Canadian, the Englishman, the Italian insist upon the acceptance of their particular national views, and intolerantly refuse to see any good or virtue in the views of others, what hope can there be of the nations drawing closer together?

And if the 100 per cent. doctrine is sound and right, and the 100 percenter is to have his way, what hope is there for the future of many nations of today? Take Canada as an example. If the 100 per cent. Easterner adheres rigidly to his views, declares he alone is right, but whether right or wrong, he will not budge from any position he has taken on fiscal or other questions, and the 100 per cent. Westerner adopts the same attitude, what will be the outcome of the Canadian Confederation?

Apply the same attitude of mind in matters of race, language, religion, and government in Canada, and in each of the provinces of Canada, becomes an impossibility. The 100 percenter would wreck everything if he does not have his own way.

All history proves that intolerance has been the cause of the world's greatest sorrows, the underlying cause of its bloodiest wars. Intolerance of race, intolerance of national customs, intolerance of religion, intolerance of social conditions, the 100 percenter in the ranks of employers and in trade unions, these are the real dangers in the world today as they were in the years that are past.

The 100 per cent. demagogue with a glib tongue and a reckless disregard for truth and fact by attracting the attention, playing upon the passions, prejudices and sentiment of those who are so swayed rather than guided by their intelligence, can undo the work of generations of statesmen, and render difficult and oftentimes impossible the work of the true reformer.

The man who boasts he is 100 per cent. this or 100 per cent. that is merely advertising the fact that he is intolerant in his views and narrow in his vision and conception of life. He may be sincere, but his sincerity is the outcome of his intolerance, and his intolerance has its foundation in ignorance and a prejudiced mind. As such he is a national danger.

To Test Air Television

Monoplane Has Been Especially Constructed To Try Out Invention

Flight tests will soon be made of television apparatus calculated by its

Cuts and Burns

Minard's soothes inflammation, removes all poison and heals quickly.

W. N. U. 1793

inventor, C. Francis Jenkins, Washington physicist, to reproduce conditions as seen from an airplane, on a screen miles away.

Moving panoramas of countryside—in wartime instantaneous recording at headquarters of observations made by planes back of the enemy lines—as broadcast by the "aerial television eye," will soon be a scientific reality, he said.

Successful experiments with the new process have already been conducted with ground models from a fixed base, he announced, and a Stinson junior cabin monoplane had been specially constructed for practical test purposes.

Canada's Arctic Islands have an area in excess of 500,000 square miles.

Can Measure Laughter

Machine Determines Whether Comedy Piece Is Success Or Failure

"John James, comedian, Lafograph 89," may be the form of card used by entertainers in the future, for a new apparatus has been invented to register the exact "strength" of the laughter aroused by a comic piece in a theatre or concert hall. It registers the truth and nothing but the truth. The machine will presumably have a figure to denote absolute efficiency, and should a musical comedy fail to come up to scratch it will not longer be possible to suspect that the failure was due to the critics. Also the critic's work will be made easier. Instead of praising an author's wit, or discussing a comedian's qualities, it will be necessary only to say at the end: "Lafograph 100, or 50, or 0," as the case may be. After a first night the public will be able to see the registered rise and fall of the needle—how it began at "titter," rose to the middle spheres of "chuckle" and "laugh," leapt to the higher "outburst" or "scream," or reached the supreme heights of "screach."

PAINS IN THE BACK

These Are Usually Due To a Weakened Condition Of the Blood

The muscles of the back are constantly under heavy strain, and have but little rest throughout the day. They are therefore in need of all the nourishment and strength that plenty of pure red blood can give them. Unless they have this help, you will have backache and continue to have it.

Backache seldom or never means kidney trouble. It is nothing more than the tired, worn-out muscles of the back showing their exhaustion because of the lack of good, pure blood. The one generally recognized efficient blood builder is Dr. Williams' Pink Pills. When the blood has been improved through the use of this medicine backache disappears. Mrs. F. Fairbairn, Essex, Ont., tells what Dr. Williams' Pink Pills did for her in a case of this kind. She says:—"I suffered for nearly three years with a weak back. At times the pains were so bad that I had to walk half doubled over. I had tried several doctors with very little benefit. A friend urged me to try Dr. Williams' Pink Pills. I did so, and oh, the joy of once more being able to stand up straight without suffering intense pain. After using two boxes there was no doubt they were helping me. I used eight boxes in all and have not since had a sign of the trouble. I can do all my housework and not feel tired and wornout as formerly. For all this I thank Dr. Williams' Pink Pills."

If your dealer does not keep these pills you can get them by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Search For Oil In Manitoba

Western Oil Fields Are Gradually Extending Eastward

The search for oil in the western provinces is gradually extending into Manitoba, and announcement is made of the formation of a syndicate of eastern capitalists to drill in the Ochre River field. The new organization, which is called the Carter Oil Syndicate, has taken over the holdings of 1,300 acres south of Ochre River.

Drives Asthma Like Magic. The immediate help from Dr. J. D. Kellogg's Asthma Remedy seems like magic. Nevertheless it is only a natural remedy used in a natural way. The smoke or vapor, reaching the most remote passage of the affected tubes, brushes aside the trouble and opens a way for fresh air to enter. It is sold by dealers throughout the land.

Large Purchase Of Sheep

The first 10,000 sheep for the Manitoba Livestock Credit Company have been purchased. These consist of 7,000 Ramboulllets and 3,000 Oxford cross. Representative boards are being established at the larger country points in the province.

No man or woman should hobble painfully about because of corns when so certain a relief is at hand as Holloway's Corn Remover.

Oldest Wine In World

The oldest wine in the world is on exhibition at Speyer, Germany. It is Roman wine, recently dug up, and is estimated to be 1,600 years old. It is partly solidified, for Romans put honey in their wine.

Keep Minard's Liniment in the Medicine chest.

Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Important Move Made By Labor Government

Would Have Dominions Agree On Signing Of Optional Clause Of World Court Statutes

Important negotiations affecting Empire affairs, are reported to have been initiated by the new Labor Government of Great Britain. It has communicated with all the Dominions in an effort to gain agreement on the signing of the optional clause of the world court statutes, under which questions of international law would be submitted to the permanent court of international justice, at the Hague.

The Labor newspaper, the Daily Herald, said also that the Labor Government has informed the Dominion governments that it proposes to resume diplomatic relations with Russia.

The world court matter requires agreement of all the Dominions, and it is expected this can be secured without much trouble. Australia, hitherto, was probably the only Dominion reluctant to sign the optional clause, and it is understood this reluctance has now been removed to a great extent. In any event, Premier Ramsay MacDonald is hopeful of being able to show complete Empire agreement on joining the world court when he visits the League Assembly, at Geneva, in September.

So far as Russia is concerned, the Labor Government is already pledged to renewal of diplomatic negotiations, this being a necessary and important step towards the desired increase in British trade with the Soviet Union.

Will Increase Empire's Trade

U.S. Tariff Likely To Divert Trade To British Dominions

Increased United States tariff against Canadian products will divert Canada's trade more and more to the other Dominions of the British Empire, believes Norton Francis, president of the Canterbury, New Zealand, chamber of commerce, and prominent business man, who is visiting Canada and the United States for the purpose of studying relations between the farmer and city industry on this continent.

In an interview at Winnipeg, Mr. Francis said he does not think Canada can meet the tariff situation by further raising her own tariff scale, but should concentrate on increasing her manufacturing and inter-empire trade.

Excellent For Croupy Children.

When a child is suffering with croup it is a good plan to use Dr. Thomas' Electric Oil. It reduces the inflammation and loosens the phlegm giving speedy relief to the little sufferer. It is equally reliable for sore throat and chest, earache, rheumatic pains, cuts, bruises and sprains. Dr. Thomas' Electric Oil is regarded by many thousands as an indispensable of the family medicine chest.

Britain's Oldest House

The oldest inhabited residence in the kingdom is said to be Dunvegan Castle, in the Isle of Skye. Part of it dates from the ninth century, or a couple of hundred years before the conquest of England by William the Norman.

Minard's Liniment for Earache.

Lake Titicaca in Peru, 12,644 feet above sea level, is the highest point in the world where steamers are found.

Cut Down Food Wastage

--- by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

EDOUARD J. ROULEAU,
Editor and Publisher

THE AMERICAN TARIFF BOOMERANG

It has often been said that the pros-
perity of the United States has been
built upon a principal of tariff protec-
tion. Maybe that is so, but the present
outlook appears to justify the conclu-
sion that the policy of tariff protection
in the United States, if persisted in,
is going to re-act in a manner which
many citizens of that republic do not
anticipate.

High tariffs imposed on manufactur-
ed imports have certainly built up the
United States industries. Having seen
this brought about the agricultural
sections of the States are seeking sim-
ilar tariff protection in the hope
that the golden sun of prosperity will
shine upon them. If protection worked
well for manufacturers, it should work
equally well for us, these agricultur-
ists say.

If the agriculturists secure the de-
sired tariff protection the United States
will be placed in a position where
other countries will be able to sell it
very little. At the same time the U.S.
manufacturers will doubtless expect
to continue to export the vast surplus

of goods which is annually produced in
that country. The surplus of agricul-
tural products will also be seeking
markets in other lands. The question
now arises: how will the other coun-
tries of the world look upon and treat
the United States exports?

Take the case of Canada. The Do-
minion is the United States best cus-
tomer. We buy one billion dollars of
United States products every year and
sell her only half a billion dollars worth
and every well-informed Canadian
knows of the existence of this state
of affairs. Yet the United States gov-
ernment is planning on increasing the
import duties on our agricultural pro-
ducts until our wheat, cattle, butter,
eggs and poultry will be practically
barred from the United States mar-
kets. This rankles in the bosom of the
great majority of Canadians. Canada
is the best friend that the United States
has in the entire world. Canadians
understand the people of the United
States, consider them virtually the
same people as we are, admire their
good qualities and generally work in
harmony with them. But Canadians
are a proud and sensitive people and
bitterly resent the palpable efforts our
southern neighbors are making to shut
us off from their markets and at the
same time expect us to slavishly buy
United States goods. Ex.

Here and There

(319)

The biggest shipment of live
muskrats ever to be shipped from
Canada, a thousand in number, were
carried by Canadian Pacific Ex-
press Company from Oak Lake,
Manitoba to Hamburg, Germany, re-
cently. They were trapped in the
breeding grounds on the Manitoba
rat farm and shipped in boxes, each
box holding twelve pairs. They
were shipped on C. P. Freighters
Beaverford from Montreal and the
muskrats were in good condition
with a minimum of casualties when
they reached destination.

The Royal York Hotel, Toronto,
largest hostelry and highest
building in the British Empire, will
be opened by His Excellency the
Governor-General, June 11. The
following day will be reception day
for guests and the hotel is booked
to capacity. The whole water
front of Toronto is rapidly resem-
bling that of New York with the
building of immense structures
of which this is the outstanding.

On the authority of an official
report recently issued it appears
that the bicycle is gaining in popu-
larity in Canada. In 1928 pro-
duction of bicycles in Canada
reached a new record with the
selling value of products 52 per
cent higher than in 1927. Last
year 27,999 wheels were sold val-
ued at \$899,480.

Within the next few weeks the
largest re-forestation venture so
far made by the Ontario Govern-
ment will be under way in the
planting of 1,200,000 trees in the
Thessalon district near the Soo.
This is to be largely experimental
and as a guide to schemes under
contemplation for the future in
different parts of Ontario.

W. E. Wilford will assume the
title of purchasing agent, Canadian
Pacific Railway, Toronto, accord-
ing to an announcement recently
given out by B. W. Roberts, gen-
eral purchasing agent of the railway.
Mr. Wilford will have most of the
work in connection with the Royal
York Hotel purchases. He joined
the company as a clerk in the pur-
chasing department in 1908.

Fourteen cases of orchids were
carried from England to Japan re-
cently under the auspices of the
Canadian Pacific Express Company
to the order of the Emperor of
Japan, the Empress and members
of the Imperial Court. They are
sent out from England about three
times a year and are highly
prized by the Japanese Royal
Family and Court.

A new wheat, known as R-49,
may be the long awaited rust-
resistant wheat. Canadian Govern-
ment plant breeders have long been
experimenting in an effort to de-
velop a variety of wheat that will
resist rust and at the same time be
of high grade milling quality. Em-
mer, which is a rough, large, rather
poor-yielding grain of the wheat
family, which has seemed to be
rust-resistant, has been crossed
with Marquis wheat and the pro-
geny again crossed with Marquis,
resulting in a grain which is three-
quarters Marquis stock. The plant
breeders have carried on their ex-
periments at the Manitoba Agricul-
tural College and from as many as
86 strains developed. R-49 seems so
far to be the most promising.

GOOD PRICES PAID FOR NORTHERN LANDS

Prices averaging approximately \$20
per acre were paid for the lands com-
prising the Indian Reserves adjoining
the towns of Berwyn and Fairview
disposed of on Saturday last by the
Department of Indian Affairs. The
highest price recorded was \$40 per
acre paid by a Saskatchewan buyer
for three quarter sections in the Be-
aver Reserve near Fairview. Widespread
interest had been shown in this sale
and a number of parcels were secured
by buying from various parts of the
United States and Canada.

TRANSFER NORTHERN RAIL- WAYS ON TUESDAY, JULY 2

Joint management of the Northern
Alberta Railways comprising the Ed-
monton Dunvegan & British Columbia
line and the Alberta Great Waterways
line will be assumed by the Canadian
Pacific and Canadian National rail-
way systems on Tuesday, July 2. It has
been announced by Hon. V.W. Smith,
Minister of Railways. E.W. Beatty,
president of the Canadian Pacific will
also be president of the new company
with Sir Henry Thornton as vice-pres-
ident and John Callaghan who has
been general manager of the lines un-
der the operation of the government
will continue in the same capacity
under the new management. D. C.
Coleman, vice-president of the Cana-
dian Pacific Railways and W. A.
Kingsland, general manager of the
Canadian National Railways, under
the direction of the board, supervise
operation of the northern lines.

"Mandy, why yo' all name dat chile
opium?"

"Because they say opium comes
from wild poppies, and dis chile's
poppy-sho' am wild."

ALBERTA MEN NAMED ON AGRICULTURAL BOARD

H.E.G.H. Scholsfield of Calgary, the
vice-president of the United Farmers
of Alberta, and Senator D.E. Riley
of High River, have been named as
Alberta members of the National Com-
mittee on Agriculture of the Canadian
Chamber of Commerce. This commit-
tee will have under consideration

such questions as agricultural pro-
grams for Boards of Trade and Cham-
bers of Commerce, the extending of
agricultural district representatives'
services, the analysis of the cost of
distribution of farm products and si-
milar problems affecting the agricul-
tural industry of the Dominion.

A Trip Through Canada's Inland Ocean

1. View of Manitoulin Island from aboard ship.
2. S.S. ASSINIBOIA passing through Sault Ste. Marie locks which connect Lakes Huron and Superior.
3. Deck scene on S.S. KEEWATIN on Lake Superior.

The Great Lakes—Canada's inland ocean—opened
to navigation last month, are just entering on
their summer condition of offering one of the major
attractions of the Dominion to tourists. Vistas of
beautiful islands and frowning headlands present
some of the most beautiful scenery on the North
American continent, while the illusion of sea travel
is given to passengers when for a full day at least no-
thing but water is visible from the ship. Canadian
Pacific ships, traversing their waters weekly, sup-
ply every up-to-date comfort and facility to travel-
ers and remarkable engineering works add to the
list of sights and beauties which nature gives in
profusion.

Often you say "some day I'll take an ocean
voyage," but did you ever stop to think that next
door to you is an inland ocean where for two glorious
days aboard a Canadian Pacific ship you can enjoy
your long-dreamed-of voyage? If you haven't, the
chance lies open to you and you can take the deligh-
tful cruise across Huron's blue waters, through the
lovely St. Mary's River and away over the broad

expanse of Lake Superior, the largest body of fresh
water in the world.

You can take it as a trip in itself or you can take
it as a break in your rail journey across the continent.
It carries you from Port McNicoll to the Head of the
Lakes at the Twin Cities. The great white ships of
the Canadian Pacific speed along with all the swift
grace of gulls that circle and dip at the mast heads or
perch and flutter above the deck rails. Perfection of
service adds a last pleasing touch to the meals, the
comfort of the staterooms and the social affairs on
deck and below.

Since the level of Lake Superior is 21 feet higher
than that of Lake Huron the Sault Ste. Marie lock
has been constructed and the Canadian Ship Canal
to join up the two lakes. This remarkable engineering
work is one of the sights of the voyage. Three fine
ships make the trip weekly for the Canadian Pacific,
the "Keewatin," "Assiniboia," and "Manitoba,"
two from Port McNicoll and one from Owen Sound,
with the same number of eastward sailings from the
Twin Cities.

Product of General Motors

FRIGIDAIRE is a product
of the world's largest
organization of electrical,
mechanical and chemical
engineers. It is backed by
the vast resources of General
Motors. Great value at
low price has placed more
Frigidaire in use than all
other electric refrigerators

The QUIET Automatic Refrigerator

BEAUTIFY CANADA

Clean Up, Paint Up, Keep It Up --- Increases the Value of Your Property

When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Increase In Gold Supply

Was Greater By Sixty-One Million Than Amount Minted In 1928

Gold holdings in the United States at the end of 1928 were reported by the federal reserve board in the April issue of its bulletin to have been 37.6 per cent. of the world's total, which amounted to \$9,581,000,000.

The total gold supply was compiled from reports transmitted to the board from 40 countries and shows that the increase in gold of \$466,000,000 in a year was greater than the amount of gold minted during the year by about \$61,000,000. The increase was made, the report said, even though about \$80,000,000 was absorbed by Great Britain and an unknown amount taken away for industrial consumption.

Draws Attention To Peace River District

Has Room For 2,000,000 People Says Major-General McRae

Major-General A. D. McRae will again draw the attention of parliament to the colonizing possibilities of the Peace River country. His visit to that area last year has more than confirmed his previously expressed opinion that 2,000,000 people can find homes for 400,000 farms of 240 acres each. General McRae will urge greater railway facilities, modern methods of preparation of scrub land and a national colonization and settlement policy extending over ten years.

"Have faith in your fellow man," says a paragraphist. But be sure you get his signature on the dotted line.

Airplane On Submarine

Big Innovation Has Been Added To Italy's Newest Craft

Italy's largest and best equipped submarine, the Franco Tosi, has been launched at the dockyards at Taranto, Italy. The submarine has two 3,000 horsepower Diesel engines of special designs which can be used separately or together, and which give a surface speed of 19 miles an hour. Two electric motors of 1,000 horsepower each propel the submarine at a speed of ten miles an hour under water.

The submarine's artillery is one anti-aircraft gun and several machine guns. The submarine is to carry a seaplane in a large tube adjoining the turret, a big innovation in submarine technique. The tube is able to resist over 300-foot depth water pressure.

THESE SIMPLE RULES MAKE TEETHING EASY

Be careful of Baby's diet during teething. Do not overfeed him. Watch his stomach and bowels and at the first sign of indigestion, gas or constipation, give him a few drops of harmless, pleasant-tasting Fletcher's Castoria. These simple rules are making teething easy on million's of babies—and mothers, too. For over thirty years Castoria has been the trusted standby of mothers everywhere. It soothes wakeful, cross babies to sleep quickly and easily—and it's purely-vegetable so you can give it as often as needed. It does the work of castor oil better and more gently. For your protection, the bottle of genuine Castoria always bears the Fletcher signature.

Minerals In Alberta

Alberta is famous for its vast resources of coal, for the rapid development of its oil and gas resources, and for the extent of its unique deposits of bituminous sands.

A GREAT PUZZLE TO CAREFUL PARENTS

One of the greatest puzzles to the careful parent is to know just what medicine to give the little ones. When the child falls ill with griping pains; is seized with cold or fever, refuses food or vomits what he has taken, when he cries a great deal and cannot get the sleep so necessary to the growing child, the parent is in a quandary. What is to be done on such occasions? As often as not there is not a suitable medicine in the house. The puzzle is what to give him to set him right quickly.

It is to meet such emergencies that Baby's Own Tablets were designed. These pleasant little Tablets quickly reduce fever, break up colds, relieve constipation and indigestion and allay teething pains. They quiet the nerves and promote restful health-restoring sleep. They are guaranteed absolutely harmless and safe for even the youngest and most delicate baby.

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The oldest steamship in the world is said to be the barque "Constance," built in 1723, and now in use as a training ship at Copenhagen.

Minard's Liniment for cuts and bruises.

Canada's Forest Products One freight car in every six in Canada is loaded with forest products.

An Oil For All Men.—The sailor, the soldier, the fisherman, the lumberman, the out-door laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subdue lumbago and overcome rheumatism, it is excellent. Therefore, it should have a place in all home medicines and be amongst those taken on a journey.

The bones of an average man weigh twenty-five pounds.

Minard's Liniment—good for tired feet.

W. N. U. 1783

Make Your Priming Coat

By a primary coat is meant the first, or primary, coat of paint or varnish on any surface of wood, metal or plaster. The first object of the priming coat is to stop most of the suction, present to a great extent in wood and plaster, so that the finishing coats will stand out with a uniform degree of gloss, or, in the case of flat-wall paint, with a uniform degree of flatness.

In this connection, please note that no such uniformity can be obtained until the porous nature of the surface, or suction, has been satisfied. In the case of metal surfaces the degree of suction, or porosity, is far less noticeable; therefore, such surfaces will naturally call for a different priming treatment.

The second object to be aimed at in the first class priming coat is a proper degree of penetration of the face, so that the paint will to the greatest possible extent become a part of the surface—not merely so much pigment and oil spread out on top of, and insecurely bound to, the surface.

Bearing these objects in mind, the salesman will readily understand that a thick priming coat cannot possibly be a good priming coat. Why? Take the first object outlined above. If a thick priming coat is applied on wood or plaster the porous nature of the surface will suck away most of the oil from the paint, which, mind you, needs just this quota of oil to bind it and form a good film. The result is, that instead of having stopped the suction, you have merely superimposed another surface, porous in nature because it has been deprived of too much oil and insecurely bound to the surface for the same reason—and that also kicks the props from under our second support—the second object.

So we arrive at the natural and logical conclusion that priming coats on wood and plaster must be thin coats—it is almost impossible to get them too thin. If a priming coat can be said to be too thin, such a claim can only be advanced from the covering or hiding viewpoint—a defect which can be easily remedied by an additional coat. But if too thick a priming coat is applied, a dozen coats will not cover up the blunder, because it will be exposed by the almost inevitable result—peeling of the paint from the surface.

When in doubt—thin priming coats.

Soldiers' Settlement

31,360 Veterans Have Been Settled On Farm Lands

Veterans to the number of 31,360 have been settled on farm lands, with and without loans, under the Soldiers' Settlement Act, according to a report tabled in the House of Commons. No fewer than 6,652 of these men established themselves without financial assistance from the Government. More than 6,000,000 acres in all, at an average price of \$10 per acre, have been bought or homesteaded by the Vets.

Dean (to Frosh): "Do you know who I am?"

Frosh: "No. I don't, but if you can remember your address, I'll take you home."

Keep Your Farm Up-to-Date This Inexpensive Way

For Farm Homes

Faded or cracked walls and ceilings detract from the pleasure of farm life. Hundreds of farm owners, realizing this, have transformed their rooms into bright, colorful interiors by applying Gyproc over all the old, ugly surfaces—then decorating. Remarkably attractive results are thus achieved at small cost. Every room becomes much more beautiful, livable and up-to-date.

Barns and Poultry Houses

Gyproc lined barns and poultry houses provide the best protection against fire, cold, heat and vermin that your stock can have. You can erect strong, rigid Gyproc sheets yourself in short time and at little expense. After a few months you will be delighted with the improved health of your cattle and the increased laying capacity of your flock.

Utilizing Waste Space

Those musty, inaccessible waste spaces in your attic and basement! Why not convert them into extra rooms by erecting Gyproc walls and ceilings? You can have a playroom, a laundry room, a workshop, a special preserving closet or any other kind of room you wish.

For fast, economical, fire-proof construction on the farm there is nothing to equal Gyproc. Write us for information or see your nearest Gyproc dealer.

The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

After a night of revelry at a New York uptown night club, Marcus, the famous revue producer, takes a party of four to Blackie Joe's downtown club, which stays open until sunrise. They are seated at a "ringside table" by Al Stone, Blackie's chief comedian and singing waiter, who takes their order for beer. Al is unaware of Marcus's identity. Grace, the cigarette girl, is devoted to Al and really in love with him, but he does not see that. Al fills the order for beers and on his return from the bar sees Molly, the ballad singer in her dressing room. He moves toward her as if drawn by a magnet. He is in love with her, but Molly is indifferent to him.

CHAPTER III.

Al entered Molly's dressing room, depositing his tray of beers on a nearby stand. He forgot the drinks, forgot the party of fashionably dressed men and women who

It May Be Urgent

When your Children Cry for It

Castoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done, for Castoria is a baby remedy, meant for babies. Perfectly safe to give the youngest infant; you have the doctors' word for that! It is a vegetable product and you could use it every day. But it's in an emergency that Castoria means most. Some night when constipation must be relieved—or colic pains—or other suffering. Never be without it; some mothers keep an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

Fletcher's CASTORIA

W. N. U. 1793

were impatiently waiting for them in the big room outside, forgot everything except the girl he adored—Molly.

He stood quietly by her side for a moment, saying nothing. And Molly, the ballad singer, continued deftly the business of making up, as she sat before her dressing table. She wished to goodness that this singing waiter, who was always composing silly songs, would transfer his affections to someone else. But, finally, she couldn't escape the penetrating insistence of his eyes as he gazed over her shoulder at her decidedly attractive reflection in the mirror. She turned her head with a sigh of resignation, and said ambiguously:

"Ain't love grand!"

Al did not know quite what she meant by that. If she were spoofing him, well, she could—he didn't mind. Whatever she did she couldn't prevent his loving her. But now her remark unlocked the flood gates of his speech.

"I can't help it, Molly, if I'm crazy about you," he whispered ardently, coming still closer. "I've been that way ever since the first time I saw you. I think you're the most beautiful girl in the world—on the level, I do!"

Al longed to reach out and stroke her glossy golden hair; he wanted to catch her beautiful little white hands and pull her close to him. But he realized he couldn't do that now, her attitude said so plainly, "Stand off!"

As for Molly, she was mildly pleased and flattered at the impression she had made. No woman dislikes being called the most beautiful girl in the world, even if she doesn't love the man who says it. But, after all, he was just a singing waiter, a chap with no prospects. She said to him crisply:

"Be yourself, waiter."

The remark should have been like a slap in the face to Al, but it wasn't. If he had stopped to think he would have known she addressed him as "waiter" simply to humiliate him.

"You know, Molly," he began earnestly, "I'm not going to be a waiter all my life. Some day I'm going to sell some of the songs I've written. Don't you see, Molly, that if I just have you by my side I can't miss. I can write ballads that will put you over big—make you the talk of Broadway!"

Molly's boredom was apparent.

"Oh, run along, Al. I've heard all that talk before."

But Al scarcely heard her words. He was reaching in his coat pocket for some of the songs he had written. He drew them out, sorted them in nervous haste, and produced the one most precious to him—"Always." This was the heart-throb song he had written just the night before, thinking of Molly every moment during the creation of it. As he had penned the words and arranged the music he had visualized Molly singing it in her lovely, sensuous contralto voice. It was her song; she had inspired it completely.

Molly had returned to her make-up boxes; she did not even glance

up as Al extended the song for her inspection.

"Molly!" he pleaded desperately, "Can't you see that, although I can't talk the way I feel, I can write my feelings into music. I've written this song just for you. I want you to do something for me—sing it to-night."

Al's beseeching tone would have brought a sympathetic response from almost any woman, but not Molly. She was humming softly to herself as if to drown out his words. Meanwhile, the beers stood on the nearby table, the white, feathery foam gone from their tops. Meanwhile, Marcus the great producer, was in the outside room raging at the delay.

He rapped peremptorily on the table and finally summoned Blackie Joe himself to make a complaint. Blackie listened, nodded rapidly, and headed for the bar in search of Al. But at the doorway he glanced down the corridor and saw his singing waiter in earnest confab with Molly. Blackie took the situation in at a glance, but decided not to bawl out Al. After all, when a man's in love, you must expect him to be barmy, reasoned Blackie. He stepped to the doorway and said, not unkindly:

"Come on, Al—on the job."

Al turned to his tray of beers but, before picking it up, thrust his precious song on Molly's dressing table before her.

"Read the words, please," he begged and, catching up his tray vanished.

Blackie Joe stood nonchalantly in the doorway, one hand thrust into his trousers' pocket, staring after Al's retreating back. Then the proprietor turned to Molly.

"Molly, do your stuff tonight. Marcus is out in front."

Molly straightened as if touched by an electric shock. All trace of boredom vanished.

"Shut my mouth, Blackie! You don't mean it—not Marcus who puts on the roof revues?"

"No one else but," said Blackie, nodding delightedly.

The glow in Molly's eyes was replaced by a cool, calculating stare. Marcus was outside—what an opportunity! Marcus, whose approval meant fame!

"Blackie," she begged, "introduce me?"

Blackie nodded—"Okay, I'll do that"—and returned to his floor show. Two boy hoopers were strutting their stuff near the Marcus table, while Al was serving the belated beers.

As Blackie came closer, he heard Marcus's protesting voice:

"There's a fly in my beer!"

Al leaned over, quick as a flash, and answered:

"Sh-h! Not so loud—they'll all be wanting them."

Marcus turned away in annoyance. Al shouldn't wisecrack that way with such a man, thought Blackie. It was all right with the regular patrons, but not with anyone like Marcus. But before Blackie could smooth things out, Al had picked up the glass and hurried off to bring a new beer.

At the bar doorway he again confronted Molly—in her most gorgeous costume, garbed for conquest.

"Molly, did you like it?"

"Like what?"

"My song. Will you sing it?"

Molly's eyes flashed in sudden anger. "For heaven's sake, Al, let me alone! I've important business on tonight. I didn't read it and I won't sing it! That's flat!"

As Al recoiled before her lashing words his gaze dropped. His song lay on the floor—under Molly's slim, high curving heel!

(To Be Continued.)

Little Helps For This Week

"I will lay down My life for thy sake."—John xlii. 37.

Many loved Truth, and lavished life's best oil

Amid the dust of books to find her. Content at last, for guerdon of their toil,

With the east mantle she hath left behind her.

Many in sad faith sought for her, Many with crossed hands sighed for her;

But these, our brothers, fought for her, At life's dear peril wrought for her,

So loved her that they died for her. —James Russell Lowell.

The seeds of truth sown by great and loyal men bear fruit through all the years to be. To have lived and labored and died for the right, nothing can be sublimer.

Has Overcome Handicap

How a 17-year-old Toronto boy, paralyzed since infancy and unable to write, dictated his matriculation examinations has been described by Premier Ferguson. He answered questions in the presence of the provincial registrar and is expected to obtain good marks.

A Big Increase

In the first five months of this year 166,868 automobiles were manufactured in Canada, an increase of 70,000 over the corresponding period a year ago.

-they call him
"The man you can't rattle"

Many successful business men regularly use Wrigley's. The act of chewing has a soothing effect. The healthful cleansing action of Wrigley's refreshes the mouth—gently stimulates the flow of the natural juices—steadies the nerves—helps digestion.

WRIGLEY'S

In Buckingham Palace

Private Telephone and Telegraph Office Part Of Equipment

Very few people are aware that there is within Buckingham Palace a very completely equipped telegraph office, together with a private telephone exchange. So great has been the number of enquiries here lately respecting the health and progress of the King, that it has become necessary to increase the staff usually employed, and for this work specially qualified officials have been selected.

Use Miller's Worm Powders and the battle against worms is won. These powders correct the morbid conditions of the stomach which nourish worms, and these destructive parasites cannot exist after they come in contact with the medicine. The worms are speedily evacuated with other refuse from the bowels. Soundness is imparted to the organs and the health of the child steadily improves.

Discover Old Dinosaurs

The skeletons of dinosaurs believed to be 90,000,000 years old yet well preserved, were discovered by Dr. Sven Hedin, world-famous Swedish scientific explorer, during his recent expedition to the Gobi desert, he reported on his return to Victoria, B.C., from Asia.

Minard's Liniment for Rheumatism.

Of the 12 biggest banks in the world eight are said to be British with five of them in London.

WINDOLITE

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 150 ozs. The Improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

WORLD'S FAMOUS THREE FUEL HART PARR

In special tests conducted by nationally known engineers who used cheap distillate fuel the great Hart Parr 18-36 registered a draw bar pull of 5,335 pounds at 2 miles per hour and 4,075 pounds at 3 miles per hour. On the belt it easily pulled the amazing load of 43 horse power. The Hart Parr is a three fuel tractor and will burn gasoline, kerosene or distillate equally well. It is the one tractor that develops its power from the cheapest low grade fuel. Hart Parris are made for small, medium or large farms and have three forward speeds to speed up hauling and field work. Drive yourself and experience the thrill of controlling tremendous power.

DON'T MISS IT**SUNDAY SCHOOL PICNIC TO
BE HELD NEXT WEDNESDAY**

The competition in the Carbon United Sunday School between the Reds and the Blues for attendance, and which ended the last Sunday in June, was won by the Blues, the following being the official figures: Reds, 343; Blues, 359. With this loss the Reds have to provide a picnic for everyone and this will be held next Wednesday afternoon, July 17, at the water hole near S. N. Wright's farm.

Farmers and others in the district who are using gasoline for tractors and other farm purposes, with the exception of cars and trucks, would be well to remember that they are entitled to the rebate of the road tax on gasoline. In order to get this refund it is necessary to fill in and otherwise complete a special form, which may be obtained from the Provincial Treasurer at Edmonton. One will be able to save 4 cents per gallon on gasoline used for domestic purposes and this amount may be greatly needed before the winter is over.

**LAWN TENNIS DISTRICT OR-
GANIZED AT DRUMHELLER**

A meeting of the delegates of the Lawn Tennis Clubs in the Drumheller District, was held at Drumheller on Wednesday June 26th. The following clubs were represented: Carbon, Hesketh, Drumheller and Rosebud. It was decided to form a district for inter-club competitions with these clubs and such others as may decide to join later and from the letters received it is expected that many other clubs will join. This district takes in the C.P.R. line, Strathmore east to the border and Rockyford to Brooks; and the C.N.R., Rosebud to Inverlake.

W. A. Braisher of Carbon was elected secretary of this district.

**FOURTH FORTNIGHTLY CROP
REPORT**

Issued by Dept. of Agriculture

Crop conditions through the central part of the province have been considerably improved by rains during the past week, and in southern and northern sections there is satisfactory promise of a good crop, according to telegraphic reports received by the Department of Agriculture for the fourth crop report of the season.

The prolonged drouth during the latter part of May and the first three weeks in June has considerably reduced the prospective yield over the area comprising the central part of the province and in a few localities early sown wheat has been pastured or plowed down. Later sown crops, however, on breaking and summer-fallow have been able to weather the dry period and as a result of the recent rains will give a fairly good yield.

The southern part of the province has received sufficient rainfall to promote continued growth. An exceptional good stand of fall wheat is reported and spring wheat and the coarse grains are coming along well. The first irrigation of the season has been completed and a start will be made with the cutting of the first crop of alfalfa during the coming week.

**DRIVERS WARNED OF DANGERS
DUE TO HITCH HIKERS**

All over the country war is being declared on "hitch hikers" or "ride beggars." The feeling among motor clubs is that this is something that must be stamped out and the sooner the better.

The season is now about to open for these "thumb tourists" so motorists are urged to be on their guard, no matter how sympathetic they may feel to the roadside applicant. It is from all standpoints a pernicious practice, fraught with grave dangers to the car owner who has nothing as to the identity of the stranger.

Officials of the Alberta Motor Association have on numerous occasions sounded a warning as to this "picking up" practice which, no doubt, is just as common in this province as in other parts of the country. Too often, owners of cars have found themselves looking as calmly as possible into the barrel of a revolver, or finding it necessary to lose no time in turning the car over to the mercies of the stranger.

Genuine cases, in which lifts would

no doubt be justified, doubtless are discovered from time to time. But the fact that grave dangers are risked in a large number of cases makes it imperative that car owners be urged to utilize the space in their machines for themselves, their families or friends.

**OLD AGE PENSIONS BOARD
OPERATING**

Applications will now be received from those eligible for assistance under the terms of The Old Age Pensions Act. It is announced by Alex. Ross, chairman of the Board. Application forms are available for all persons desiring to apply for pensions and arrangements have been made by the Board whereby applicants will be enabled to do so with the least possible trouble. Applicants residing in Calgary and Edmonton are asked to call at the Workmen's Compensation Board offices in these cities. In rural districts applications will be received by the secretary-treasurer of municipalities. In unorganized districts application forms may be secured from the office of the nearest detachment of the Alberta Provincial Police.

**Who Does Your
Printing?**

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.
